Product Description

Husqvarna 525RX Brushcutter

To cut through the thick stuff you need the performance of a 525RX brushcutter from Husqvarna. Featuring low vibration levels and the best power-to-weight ratio in its class*, the 525RX is the one to reach for when you want to maximize productivity. The brushcutter features powerful X-Torq® engine technology that provides fuel savings up to 20% and 60% fewer emissions, as well as a commercial-grade, 7-spline solid shaft and toolless air filter access. Get to work with the 525RX to experience maximum efficiency and superior results. (*Based on weight of tool without fuel. Ratio calculated using weight (lbs.) and engine horsepower. Class defined as bull/bike handle style brushcutters with engine displacement in the 25cc to 29cc range.)
