Product Description

DR Pilot 2C Mini Tiller Cultivator

At just 55 pounds, the PILOT is our lightest, easiest-to-maneuver gas-powered trimmer on wheels. But it has the muscle to vastly outperform any handheld trimmer on the market...without the hassle or the back pain!

This lightweight, easy-to-use cultivator is great for use for the full growing season. Cultivate weeds between planted rows, or even use it to prepare seedbeds in established gardens. It makes a great companion for a full-sized DR Rototiller...once the heavy work is done, you'll appreciate the grab-and-go PILOT 2C for ongoing garden maintenance.
