Product Description

Goldens' Cast Iron Half Grate for 14? Cooker

Our reversible 14? cast iron half grate gives you the ability to choose both the distance to the fire as well as the width of the cooking surface. In the lower position, the grate provides a wide cooking surface for beautiful grill marks with each sear. The upper position is ideal for smoking and grilling. The purchase of two additional grates adds a tiered-cooking option to your Cooker – perfect for smoking multiple racks of ribs at a time!
