### Product Description

## Goldens' Cast Iron Half Grate for 20.5" Cooker

Our reversible cast iron half grate, for the 20.5" Goldens' Cast Iron Cooker, gives you the ability to choose both the distance to the fire as well as the width of the cooking surface, with 330.6 square inches of cooker area. In the lower position, the grate provides a wide cooking surface for beautiful kamado grill marks with each sear. The upper position is ideal for smoking and grilling. The purchase of two additional grates adds a tiered-cooking option to your cast iron kamado cooker – perfect for smoking multiple racks of ribs at a time! Rack and stack!
