### Product Description

## Goldens' Cast Iron Searing Plate for 20.5? Cooker

Perfect for grilling, baking, braising, roasting, and sautéing, our Goldens' Cast Iron searing plate, for the 20.5? cooker, amplifies the flavorful of your steaks, poultry, pork, seafood and even vegetables. By searing, you're caramelizing the natural sugars within the meat, sealing those juices, in addition to browning the proteins that become a rich crust for a more flavorful entrée! Our cast iron searing plate provides a wide cooking surface for a variety of recipe combinations like reverse searing!
